

# **FellowCraft Degree**

of Freemasonry

as practiced in the

**State of Nevada**

circa 1986

Since as early as 1727, men have been leaving the Masonic Lodge because Freemasonry is incompatible with a sincere expression of Christianity. When a Mason becomes a born again Christian, he sees Freemasonry clearly for the first time. Many men have left the lodge to follow Jesus Christ. Usually they do so quietly. Often, it takes a period of time before they are released from the spiritual bondage which results from the practice of occult religion. Some former Masons have had substantial ministries. Charles Finney, the 19th century evangelist, was one such man. God used him in a mighty way.

The following exposure has been translated from a Masonic "cypher." The cypher was issued to a former Worshipful Master who has turned his life over to Jesus Christ. He has exposed the content of Masonic ritual so that Christians who wish to witness to Masons will be educated and equipped to take issue with the teachings found within Masonic ritual.

Masonic ritual varies slightly from state to state. Yet, the variations do not change the character of Masonic ritual as practiced in any particular lodge. The striking similarity of the rituals of various states can be demonstrated by examining Masonic Monitors. Monitors often contain selected portions of ritual, in addition to explanations of the meaning of the ritual.

Commercially printed exposures of Masonic ritual are readily available. **LESTER'S LOOK TO THE EAST** and **DUNCAN'S RITUAL** are two of the better known editions in the United States. They are available at many book stores.

Masonic "Cyphers" are commonly used as a memory aid for those who are learning ritual. Such cyphers contain one to several letters which represent each and every word in the ritual. Masonic ritual is not placed entirely in print by the lodge, for obvious reasons. However, Grand Lodges do publish small books which are given to men who are raised to Master Mason. These Masonic "Monitors" contain statements as to the Grand Lodge's authoritative interpretation of the meaning of the ritual. Masonic Monitors are not normally available to the public. Bound Xerox reprints of Masonic Monitors are available for most states from Ephesians 5:11, Inc.

An Internet web site which contains information about leading men away from the Masonic Lodge can be found at <http://www.ephesians5-11.org>

Additional copies of this printed Masonic ritual may be obtained by downloading them from the web site and printing the file using your laser, or ink jet printer, in conjunction with the Adobe Reader. - 50 WM: Advance and give it. SD: Shibboleth. (Each of the three times it is given during this examination, the pass-word is whispered by the Senior Deacon into the ear of the examiner, so that the candidate will not overhear it.)

1 SD: (S) Worshipful Master, the Brother is in due form.  
WM: \* \* \*

WM: In token of your sincerity, kiss the Holy Bible on which you hand rests. 1

5 WM: Brother \_\_\_\_, if you are still willing to take the Obligation, say "I", pronounce your name in full, and repeat after me.

WM: Brother Senior Deacon, remove the cable-tow. 5

WM: Brother \_\_\_\_, in your present situation, what do you most desire?

10 Cand: I, \_\_\_\_, of my own free will and accord, in the presence of Almighty God and this Worshipful Lodge of Fellow Crafts, erected to Him, and dedicated to the memory of the Holy Saints John, do hereby and hereon, solemnly and sincerely promise and swear, that I will keep and conceal and never reveal any of the secrets belonging to the Degree of Fellow Craft, which I have received, am about to receive, or may be hereafter instructed in, to any person unless it shall be to a worthy Brother Fellow Craft, or within the body of a just and duly constituted Lodge of such; and not unto him or them until by due trial, strict examination, or lawful Masonic information, I shall have found him or them justly entitled to receive the same.

Cand: (prompted by SD) More Light in Masonry. 10

WM: Let the Brother be brought to Light.

15  
20  
25 Furthermore, I do promise and swear that I will answer and obey all due signs and regular summons, sent me from the body of a just and duly constituted Lodge of Fellow Crafts, or handed me by a worthy Brother of this degree, if within the length of my cable-tow, and the square and angle of my work.

WM: My Brother, on being brought to Light in this degree, you behold the Three Great Lights in Masonry, as in the preceding degree, with this difference: One point of the Compasses is above the Square, which is to teach you that you have received, and are entitled to receive, more Light in Masonry. But as one point is still hidden from your view, it is also to teach you that you are as yet one material point in darkness respecting Freemasonry. 15  
20

WM: \*. 25

30  
35 Furthermore, I do promise and swear that I will help, aid and assist all poor and distressed Fellow Crafts, they applying to me as such, I finding them worthy, and can do so without material injury to myself.

WM: You now behold me as Worshipful Master of this Lodge, approaching you from the East, upon the step, under the due-guard and sign of an Entered Apprentice; upon the step, under the due-guard and sign of a Fellow Craft. My Brother, a Fellow Craft advances on his right foot, bringing the heel of his left into the hollow of his right, thereby forming the angle of a square. This is the dueguard, and alludes to the position of your hands while taking the Obligation; this is the sign, and alludes to the penalty of the Obligation. This due-guard and sign are always to be given as a salutation to the Worshipful Master, also on entering or retiring from a Fellow Crafts Lodge. 30  
35  
40

40  
45 Furthermore, I do promise and swear that I will not wrong, cheat, nor defraud a Fellow Crafts Lodge, or a worthy Brother of this degree, to the value of anything, knowingly, nor suffer it to be done by another if in my power to prevent.

WM: My Brother, before rising from this Sacred Altar where you have taken the solemn Obligation of a Fellow Craft, I wish to direct your attention to one of its ties. You have sworn that you would answer and obey all due signs and regular summons sent you from the body of a just and duly constituted Lodge of Fellow Crafts, or handed you by a worthy Brother of this degree, if within the length of your cable-tow and the square and angle of your work. The length of your cable-tow alludes to your ability to obey a summons, and the square and angle of your work to the propriety of answering such. Should you receive a summons from this or any other Lodge, health and business permitting, it would be your duty to obey it; health and business not permitting, it would not be within the length of your cable-tow. 40  
45  
50  
55

50  
55 To all of which I do solemnly and sincerely promise and swear, without any hesitation, mental reservation, or secret evasion of mind in me whatsoever, binding myself under no less a penalty than that of having my left breast torn open, my heart and vitals taken thence, and with my body given as a prey to the vultures of the air, should I ever knowingly, or willfully, violate this, my solemn Obligation of a Fellow Craft. So help me God and make me steadfast to keep and perform the same.

1 Should you see a Masonic sign given at what you  
deemed an improper time, or an improper place,  
you are not bound to answer it; it would not be  
within the square and angle of your work. My  
5 Brother, your own good judgment must tell you  
when and where to answer Masonic signs.

You should always remember it, for should you  
be present at the opening or a Fellow Crafts  
Lodge, this pass-word will be demanded of you  
by one of the Deacons, and should you be unable  
to give it, it would cause confusion in the Craft. 5

I now present my right hand in token of the  
continuanance of friendship and brotherly love, and  
10 will invest you with the pass-grip, pass-word, real  
grip and word of a Fellow Craft. As you are  
uninstructed, he who has hitherto answered for  
you, will do so at this time. Give me the grip of  
an Entered Apprentice.

WM: Will you be off or from?

SD: From.

WM: From what and to what?

SD: From the pass-grip of a Fellow Craft, to the real  
grip of the same. 10

15 WM: Brother Senior Deacon.

possession of the step, due-guard, sign, pass-

1 SD: It is the order of the Worshipful Master that you teach this Brother how to wear his apron as a Fellow Craft.

WM: Call the Craft from labor to refreshment, to resume labor at the sound of the gavel in the East. 1

5 SW: Cause the Brother to face the East. My Brother, you have already been informed that at the building of King Solomon's Temple, the different bands of workmen were distinguished by the manner in which they wore their aprons. Fellow Crafts wore theirs with the flap turned down at the lower left corner, tucked up in the form of a triangle, to serve as a receptacle for their working tools. As a Fellow Craft you will therefore wear yours in this manner, that the three sides of the triangle thus formed may symbolize the fidelity, industry, and skill which should characterize your work as a Fellow Craft.

JW: \* \* \*. Brethren, it is the order of the Worshipful Master that you be now called from labor to refreshment, to resume labor at the sound of the gavel in the East. 5

10 SD: Worshipful Master, your orders have been obeyed.

\*. (Craft is called from labor to refreshment.) 10

15 WM: My Brother, as you are now clothed as a Fellow Craft, I present you emblematically, the working tools, which are the Plumb, Square, and Level, and are thus explained: The Plumb is an instrument used by operative masons to try perpendiculars, the Square to square their work, and the Level to prove horizontals; but we, as Free and Accepted Masons, are taught to use them for more noble and glorious purposes. The Plumb admonishes us to walk uprightly in our several stations before God and man, squaring our actions by the Square of Virtue, ever remembering that we are traveling upon the Level of Time to that "undiscovered country from whose bourne no traveler returns."

WM: \*. (Craft resumes labor.)

SS: \* \* \*. (from outside the inner door)

20 SD: I now present you the Three Precious Jewels; the Attentive Ear, the Instructive Tongue, and the Faithful Breast. They teach us this important lesson. The Attentive Ear receives the sound from the Instructive Tongue, and the mysteries of Freemasonry are safely lodged in the repository of Faithful Breasts.

SD: (S) Worshipful Master. 15

WM: Brother Senior Deacon.

SD: There is an alarm at the inner door. 20

WM: Attend to the alarm and ascertain the cause.

25 WM: Brother Senior Deacon, reconduct the Brother to the place whence he came, invest him with that of which he has been divested, and return him to a place representing the Middle Chamber of King Solomon's Temple.

SD: \* \* \*. Who comes here?

SS: Worthy Brother Fellow Crafts desire admission. 25

SD: Worshipful Master, worthy Brother Fellow Crafts desire admission.

30 WM: My Brother, salute as you have been instructed.

WM: You will admit them and conduct them emblematically through a porch, up a flight of winding stairs consisting of three, five, and seven steps, through an outer and inner door, into a place representing the Middle Chamber of King Solomon's Temple. 30

SD: It is the order of the Worshipful Master that you be admitted and conducted emblematically through a porch, up a flight of winding stairs consisting of three, five, and seven steps, through an outer and inner door, into a place representing the Middle Chamber of King Solomon's Temple. 40

**MIDDLE CHAMBER LECTURE:** 45

35 WM: My Brother, salute as you have been instructed.

My Brother, the second section of this degree is principally devoted to the explanation of physical science, and by the studies attached thereto, the mind is improved and elevated to a communion with its Maker. Circumstances of importance to the Craft, and of peculiar interest to the Mason who delights in the study of the mystic beauties of his profession, are here developed and explained. 50

40 WM: \*. Brother Junior Warden.

The second section of this degree also has reference to the origin of the institution, and views 55

45 JW: (S) Worshipful Master.

1 Masonry under two denominations, operative and Speculative.

5 By operative masonry, we allude to the proper application of the useful rules of architecture, whence a structure will derive figure, strength and beauty, and whence will result a due proportion and just correspondence in all its parts. It furnishes us with dwellings and convenient shelter from the vicissitudes and inclemencies of seasons; and while it displays the effects of human wisdom, as well in the choice as in the arrangement of the sundry materials of which an edifice is composed, it demonstrates that a fund of science and industry is implanted in man for the best most salutary and beneficent purposes. By Speculative, or Free, Masonry, we learn to subdue the passions, act upon the Square, keep a tongue of good report, maintain secrecy, and practice charity. It is so far interwoven with religion as to lay us under obligation to pay that rational homage to the Deity which at once constitutes our duty and our happiness. It leads the contemplative to view with reverence and admiration the glorious works of creation, and inspires him with the most exalted ideas of the perfection of his Divine Creator.

30 The second section of this degree also refers to the origin of the Jewish Sabbath, as well as to the manner in which it was kept by our ancient Brethren.

35 In six days God created the heaven and the earth, and rested on the seventh day; the seventh, therefore, our ancient Brethren consecrated as a day of rest from their labor, thereby enjoying frequent opportunities to contemplate the glorious works of Creation, and to adore their Great Creator.

45 At the building of King Solomon's Temple there were eighty thousand Fellow Crafts employed. These were all under the immediate direction of our ancient Operative Grand Master Hiram Abif. On the evening of the sixth day their work was inspected, and all who had proved themselves worthy, by strict fidelity to their duties, were invested with certain mystic signs, grips, and words, to enable them to gain admission into the Middle Chamber of King Solomon's Temple. On the same day and hour, King Solomon, accompanied by his confidential officers, consisting of his Secretary, Senior and Junior Wardens, repaired to the Middle Chamber to meet them.

1 His Secretary he placed near his person, the Senior Warden at the inner and the Junior Warden at the outer door, giving them strict instructions to suffer none to enter except such as were in possession of certain mystic signs, grips, and words, previously established, so that when any did enter, he, knowing that they must have been faithful workmen or they could not have gained admission, had nothing to do but order their names recorded as such, and pay them their wages, which they received in corn, wine and oil, emblematical of nourishment, refreshment and joy, and after solemnly admonishing them of the reverence due the great and sacred name of Deity, suffered them to depart in peace until the time should arrive to commence the following week's work.

20 This, you will perceive, was all accomplished on the evening of the sixth day, that there might be no unnecessary labor performed on the seventh, that being a day set apart for rest and meditation. We, my Brother, are in possession of the same mystic signs, grips and words as were our ancient Brethren, and are about to endeavor to work our way into a place representing the Middle Chamber of King Solomon's Temple, and should we succeed, I have no doubt we shall be alike received and rewarded.

35 In doing this it will be necessary for us to make an advance, emblematically, through a porch, up a flight of winding stairs consisting of three, five, and seven steps, through an outer and inner door. In making this advance we necessarily pass between two pillars or columns, representing those pillars erected at the entrance to the porch of King Solomon's Temple; one on the right hand, the other on the left. The name of the one on the left hand was Boaz, denoting strength; the name of the one on the right, Jachin, denoting establishment, collectively alluding to several promises of God to David, one of which reads: "And thine house and thy kingdom shall be established forever before thee."

50 "Also he made before the house two pillars of thirty and five cubits high, and the chapter that was on the top of each of them was five cubits." Their composition was of molten or cast brass, the better to withstand inundation or conflagration, that they might not be removed by flood or destroyed by fire. They were cast in the clay grounds on the banks of the River Jordan, between Succoth and Zeredatha, where King Solomon ordered these and all the sacred vessels of the Temple to be cast. They were cast hollow

1 for the purpose of containing the rolls and records which composed the archives of our ancient Brethren.

5 The chapters were adorned with leaves of lilywork, network and chains of pomegranates, denoting Peace, Unite, and Plenty. The Lily, from its extreme whiteness, as well as the retired situation in which it grows, denotes Peace; the Network, from the intimate connection of all its parts, Unity; and the Pomegranate, from the exuberance of its seed, Plenty.

15 These pillars are surmounted by two artificial spherical bodies, on the convex surfaces of which are represented the countries, seas, and various parts of the earth; the face of the heavens, the planetary revolutions, and other important particulars.

20 Contemplating these bodies, we are inspired with a due reverence for the Deity and His works, and are induced to encourage the studies of astronomy, geography, navigation, and the arts dependent on them, by which society has been so much benefited.

30 Passing between these columns, the next object to which our attention is particularly drawn is a representation of a flight of winding stairs, consisting of three, five, and seven steps, each of which has certain Masonic significance.

35 The three steps allude to the Three Great Lights in Masonry, the Holy Bible, Square and Compasses; also to the three principal officers of the Lodge, the Worshipful Master, Senior and Junior Wardens, who represent the three great supports of Masonry: Wisdom, Strength and Beauty, it being necessary that there should be wisdom to contrive, strength to support, and beauty to adorn all great and important undertakings.

45 The three steps also allude to the great luminary of creation as he appears to us at the three principal points of observation: he rises in the east to open the day with a mild and gentle influence, and all Nature rejoices at the appearance of his beams; he gains his meridian in the south, invigorating all things with the perfection of his ripening qualities; with declining strength he sets in the west to close the day, leaving mankind to rest from their labor.

55 This is the type of the three principal stages in the life of man; infancy, manhood, and age.

The first of these is characterized by the blush of innocence as pure as the tints that gild the eastern portals of the day; and the heart rejoices in the unsuspecting integrity of its own unblemished virtue, nor fears deceit, because it knows no guile. Manhood succeeds; the ripening intellect attains the meridian of its powers. At the approach of old age, strength decays - his sun is setting in the west. Enfeebled by sickness and bodily infirmities, he lingers on until death finally closes his eventful day, and happy is he if the setting splendors of a virtuous life gild his departing moments with the gentle tints of Hope, and close his short career in peace, harmony, and brotherly love.

Ponder well, my Brother, upon the wisdom taught by these emblems, and be admonished:

“That when thy summons comes to join  
The innumerable caravan, which moves  
To that mysterious realm, where each shall take  
His chamber in the silent halls of death,  
Thou go not, like the quarry-slave at night,  
Scourged to his dungeon, but, sustained and  
soothed

By an unfaltering trust, approach thy grave  
Like one who wraps the drapery of his couch  
About him, and lies down to pleasant dreams.”

We will make a further advance and ascend the five steps. The five steps allude to the five orders of architecture, and the five human senses.

By order in architecture is meant a system of all the members, proportions and ornaments of columns and pilasters; or it is the regular arrangement of the projecting parts of a building, which, united with those of a column, form a beautiful, perfect and complete whole.

From the first formation of society, order in architecture may be traced. When the rigors of seasons obliged men to contrive shelter from the inclemency of the weather, we learn that they first planted trees on end, and then laid others across to support a covering.

The bands which connected those trees at top and bottom are said to have given rise to the idea of the base and capital of pillars, and from this simple hint originally proceeded the more improved art of architecture.

The five orders are thus classed: the Tuscan, Doric, Ionic, Corinthian, and Composite.

1 The ancient and original orders of architecture  
 revered by Masons are no more than three - the  
 Doric, Ionic, and Corinthian, which were invented  
 by the Greeks. To these the Romans have added  
 5 two - the Tuscan, which they made plainer than  
 the Doric, and the Composite, which was more  
 ornamental, if not more beautiful than the  
 Corinthian. The first three orders alone, however,  
 10 show invention and particular character, and  
 essentially differ from each other; the two others  
 have nothing but what is borrowed, and differ  
 only accidentally. The Tuscan is the Doric in its  
 earliest state, and the Composite is the Corinthian  
 15 enriched with the Ionic. To the Greeks, therefore,  
 and not to the Romans, we are indebted for that  
 which is great, judicious and distinct in  
 architecture.

20 The five human senses are Hearing, Seeing,  
 Feeling, Smelling and Tasting, the first three of  
 which have ever been deemed prerequisite to  
 being made a Mason, for by Hearing we hear  
 the word, Shibboleth; by Seeing, we see the sign;  
 25 and by Feeling, we feel that friendly and brotherly  
 grip whereby one Mason may know another in  
 the dark as in the light.

30 We will now make a still further advance and  
 ascend the seven steps. The seven steps allude  
 to the seven liberal arts and sciences, which are:  
 Grammar, Rhetoric, Logic, Arithmetic, Geometry,  
 Music, and Astronomy.

35 Grammar is the science which teaches us how  
 to express our ideas in appropriate words, which  
 we afterward beautify and adorn with Rhetoric;  
 while Logic instructs us how to think and reason  
 with propriety, and to make language subordinate  
 40 to thought.

45 Arithmetic, which is the science of computing by  
 numbers, is absolutely essential, not only to a  
 thorough knowledge of all mathematical science,  
 but also to a proper pursuit of our daily vocations.

50 Geometry treats of the powers and properties of  
 magnitudes in general, where length, breadth and  
 thickness are considered - from a point to a line,  
 from a line to a superficies, and from a superficies  
 to a solid.

A point is the beginning of all geometrical matter.  
 A line is the continuation of the same.

55 A superficies has length and breadth without a  
 given thickness.

1 A solid has length and breadth with a given  
 thickness, which forms a cube and comprehends  
 the whole.

5 By this science the architect is enabled to  
 construct his plans and execute his designs; the  
 general to arrange his soldiers; the engineer to  
 mark out grounds for encampments; the  
 10 geographer to give the dimensions of the world  
 and all things therein contained - to delineate the  
 extent of the seas, and specify the divisions of  
 empires, kingdoms and provinces. By it also,  
 the astronomer is enabled to make his  
 15 observations, and to fix the duration of times and  
 seasons, years and cycles. In fine, Geometry is  
 the foundation of architecture and the root of  
 mathematics.

20 To be without a perception of the charms of Music  
 is to be without the finer traits of humanity. It is  
 the medium which gives the natural world  
 communication with the spiritual, and few are they  
 who have not felt its power and acknowledged its  
 25 expressions to be intelligible to the heart. It is a  
 language of delightful sensations, far more  
 eloquent than words. It breathes to the ear the  
 clearest intimations; it touches and gently agitates  
 the agreeable and sublime passions; it wraps us  
 in melancholy and elevates us to joy; it dissolves  
 30 and inflames; it melts us in tenderness and excites  
 us to war.

35 It has a voice for every age and a capacity for  
 every degree of taste and intelligence. Its lullaby  
 soothes the infant in its mother's arms; its joyous  
 notes wing the tripping feet of the dancers on the  
 green; its martial tones inspire the spirit of  
 patriotism, nerve the warrior's arm, and fire his  
 heart. The stirring strains of national airs, heard  
 40 on the rough edge of battle, have ever thrilled the  
 soldier, causing him to burn with an emulous  
 desire to lead the perilous advance, and animating  
 him to deeds of heroic valor and the most sublime  
 devotion. Amid the roar of cannon, the din of  
 45 musketry and the carnage of battle, he is stricken  
 to the dust.

Raising himself to take one last long look on life,  
 he hears in the distance that plaintive strain,  
 "Home, Sweet Home." 50

55 It was our mother's evening hymn, and has often  
 lulled us to sleep in infancy. The mellowing tides  
 of old cathedral airs, vibrating through aisles and  
 arches, have stilled the ruffled spirit, and  
 sweeping aside the discordant passions of men,  
 have borne them along its resistless current,

1 until their united voices have joined in sounding  
aloud the chorus of the heaven-born anthem:  
"Peace on earth, good will toward men."

5 But music never sounds with such seraphic  
harmony as when employed in singing hymns of  
gratitude to the Creator of the Universe:  
"Be Thou, O God, exalted high,  
10 And as Thy glory fills the sky,  
So let it be on earth displayed,  
Till Thou art here, as there, obeyed."

Astronomy is that sublime science which inspires  
the contemplative mind to soar aloft and read the  
15 wisdom, strength and beauty of the Great Creator  
in the heavens. How nobly eloquent of the Deity  
is the celestial hemisphere - spangled with the  
most magnificent heralds of His infinite glory!  
They speak to the whole universe; for there is no  
20 people so barbarous as to fail to understand their  
language; no nation so distant that their voices  
are not heard among them.

My Brother, we are now approaching a place  
25 representing the outer door to the Middle  
Chamber of King Solomon's Temple, which we  
will find partly open but closely tyled by the Junior  
Warden, who will doubtless demand of us the  
pass-word of a Fellow Craft. Let us advance  
30 and make a regular alarm.

SD: \* \* \*

JW: Who comes here?

35 SD: Fellow Crafts endeavoring to work their way into  
a place representing the Middle Chamber of King  
Solomon's Temple.

40 JW: How do you expect to gain admission?

SD: By the pass-word of a Fellow Craft.

JW: Give it.

45 SD: Shibboleth.

JW: What does it denote?

50 SD: Plenty.

JW: How represented?

55 SD: By a sheaf of corn, suspended near a waterfall,  
which teaches us that while we have bread to eat  
and pure refreshing water to drink, we have all  
that necessity requires.

JW: By whom instituted?

SD: By Jephthah, a Judge of Israel, in a war with the  
Ephraimites. The Ephraimites had long been a  
5 stubborn and rebellious people, whom Jephthah  
had striven to subdue by mild and lenient  
measures, but without effect. They were highly  
incensed at Jephthah for not being called to fight  
and share in the rich spoils of the Ammonitish  
10 war, and gathered together a mighty army,  
crossed the River Jordan, and prepared to give  
Jephthah battle; but, being apprised of their  
approach, he called together the men of Israel,  
went forth, gave them battle, and put them to flight;  
15 and to make his victory more complete he  
stationed guards at the different passes along  
the banks of the River Jordan and said unto them,  
"If ye see any strangers pass this way, say unto  
them, 'Now say ye, Shibboleth,' but the  
20 Ephraimites, being of a different tribe, could not  
frame to pronounce the word and said 'Sibboleth.'  
This trifling defect proved them to be enemies  
and cost them their lives, and there fell that day  
on the field of battle and at the different passes  
25 along the banks of the River Jordan, forty and  
two thousand, after which Jephthah ruled quietly  
in Israel until the time of his death, in all about six  
years.

This was what affected us to distinguish a friend  
30 from a foe, and has since been adopted as the  
pass-word to be given before entering any regular  
and well governed Lodge of Fellow Crafts.

JW: I am satisfied; pass on. 35

SD: My Brother, we are now approaching a place  
40 representing the inner door to the Middle  
Chamber of King Solomon's Temple, which we  
will find partly open but closely tyled by the Senior  
Warden, who will doubtless demand of us the  
real grip and word of a Fellow Craft. Let us  
advance and make a regular alarm.

SD: \* \* \* 45

SW: \*. Who comes here?

SD: Fellow Crafts endeavoring to work their way into  
50 a place representing the Middle Chamber of King  
Solomon's Temple.

SW: How do you expect to gain admission?

SD: By the real grip and word of a Fellow Craft. 55

SW: Advance and give it. What is that?

1 SD: The real grip of a Fellow Craft.  
 SW: Has it a name?  
 5 SD: It has.  
 SW: Will you give it to me?  
 SD: I did not so receive it; neither will I so impart it.  
 10 SW: How will you dispose of it?  
 SD: Letter or halve it.  
 15 SW: Letter it and begin.  
 SD: You begin.  
 SW: Begin you.  
 20 SD: A;  
 SW: J;  
 25 SD: C;  
 SW: H;  
 SD: I;  
 30 SW: N.  
 SD: Jachin.  
 35 SW: I am satisfied; pass on and in.  
 SD: My Brother, we are now in a place representing the Middle Chamber of King Solomon's Temple. Behold the letter G, suspended in the East! It is the initial of Geometry, the first and noblest of sciences, and the basis on which the superstructure of Freemasonry is erected. By Geometry we may curiously trace Nature through her various windings to her most concealed recesses; by it we discover the power, wisdom and goodness of the Grand Artificer of the Universe, and view with delight the proportions which compose this vast machine; by it we discover how the planets move in their respective orbits, and demonstrate their various revolutions; by it we count for the return of the seasons, and the variety of scenes which each season displays to the discerning eye. Numberless worlds are around us, all framed by the same Divine Artist, which roll through the vast expanse, and are all conducted by the same unerring law of Nature.

A survey of Nature, and the observations of her beautiful proportions, first determined man to imitate the Divine Plan and study symmetry and order. This gave rise to societies and birth to every useful art. The architect began to design, and the plans which he laid down, being improved by time and experience, have produced works which are the admiration of every age.

The lapse of time, the ruthless hand of ignorance, and the devastations of war have laid waste and destroyed many valuable monuments of antiquity, on which the utmost exertions of human genius have been employed. Even the Temple of Solomon, so spacious and magnificent, and constructed by so many celebrated artists, escaped not the unsparing ravages of barbarous force. Freemasonry, notwithstanding, still survives. The attentive ear receives the sound from the instructive tongue, and the mysteries of Freemasonry are safely lodged in the repository of faithful breasts.

Ages ago, upon the Eastern plains, was our institution set up, founded upon principles more durable than the metal wrought into the statues of ancient kings. Age after age rolled by; storm and tempest hurled their thunders at its head; wave after wave of bright insidious sands curled about its feet and heaped their sliding grains against its sides; men came and went in fleeting generations; seasons fled like hours through the whirling wheel of time; but through the attrition of the waves and sands of life - through evil report as well as good, Freemasonry has maintained its beneficent influence, spreading wider and wider over the earth.

Tools and implements of architecture and symbolic emblems most expressive have been selected by the Fraternity to imprint on the mind wise and serious truths, and thus through the succession of ages have been transmitted, unimpaired, the most excellent tenets or our institution.

Every Brother admitted within the walls of this Middle Chamber should heed the lessons here inculcated, and consider that as a Freemason he is a builder, not of a material edifice, but of a temple more glorious than that of Solomon - a temple of honor, of justice, of purity, of knowledge, and of truth - and that these tools of the operative mason's art indicate the labors he is to perform, the dangers he is to encounter, and the preparations he is to make in the uprearing of that spiritual temple wherein his soul will find rest

1 forever and forevermore; then, indeed will the  
attentive ear have received the sound from the  
instructive tongue, and the mysteries of  
Freemasonry shall be safely lodged in the  
5 repository of faithful breasts.

SD: (S) Worshipful Master.

WM: Brother Senior Deacon.

10 SD: I have the pleasure of presenting Brother \_\_\_\_\_,  
who has made an advance, emblematically,  
through a porch, up a flight of winding stairs,  
consisting of three, five, and even steps, through  
15 an outer and inner door, into a place representing  
the Middle Chamber of King Solomon’s Temple,  
and now awaits your pleasure.

20 WM: My Brother, I congratulate you on arriving at a  
place representing the Middle Chamber of King  
Solomon’s Temple.

25 It was there our ancient brethren had their names  
recorded as faithful workmen; it is here that you  
are entitled to have yours recorded as such.  
Brother Secretary, please make the proper  
record.

30 Secy: Worshipful Master, the record will be made.

35 WM: It was there also our ancient Brethren received  
their wages, consisting of Corn, Wine, and Oil,  
emblematical of nourishment, refreshment, and  
joy, which was to signify that our ancient Brethren,  
when passed to this degree, were entitled to  
40 wages sufficient to procure not only the  
necessaries and comforts of life, but many of its  
superfluities; and may your industrious habits and  
strict application to business procure for you a  
plenty of the Corn of nourishment, the Wine of  
refreshment, and the Oil of joy.

WM: \* \* \*.

45 WM: The letter G, to which your attention was directed  
on your passage hither, has a still greater and  
more significant meaning. It is the initial of the  
grand and sacred name of God, before whom all  
Masons, from the youngest Entered Apprentice  
50 who stands in the Northeast corner of the Lodge,  
to the Worshipful Master who presides in the East,  
should most humbly, reverently, and devoutly bow.

55 WM: \*. My Brother, this concludes the ceremonies of  
this degree, and if you will remain standing, I will  
repeat to you the charge.

**CHARGE AT PASSING:**

1

My Brother, being passed to the Second Degree  
of Freemasonry, we congratulate you on your  
5 preferment. The internal, and not the external,  
qualifications of a man are what Masonry regards.  
As you increase in knowledge you will improve  
in social intercourse.

10 It is unnecessary to recapitulate the duties which  
as a Fellow Craft you are bound to discharge, or  
to enlarge on the necessity of a strict adherence  
to them, as your own experience must have  
15 established their value. Our laws and regulations  
you are strenuously to support, and be always  
ready to assist in seeing them duly executed.  
You are not to palliate or aggravate the offenses  
of your Brethren, but in the decision of every  
20 trespass against our rules you are to judge with  
candor, admonish with friendship and reprehend  
with justice.

25 Be just and fear not. Never speak ill of anyone  
unless you are sure that what you say be true.  
Avoid suspicion; for, like the fabled upas, it blights  
all healthy life and makes a desert round it.

30 Nothing so fair, nothing so pure can live, but by  
suspicion may be marred and blasted; no path  
so straight but to suspicion’s eye looks tortuous  
and bent from its true end.

35 The study of the liberal arts, that valuable branch  
of education which tends so effectually to polish  
and adorn the mind, is earnestly recommended  
to your consideration, especially the science of  
40 Geometry, which is established as the basis of  
our art. Geometry, or Masonry, originally  
synonymous terms, being of a divine and moral  
nature, is enriched with the most useful  
knowledge; while it proves the wonderful  
properties of nature, it demonstrates the more  
important truths of morality.

45 Your past behavior and regular deportment have  
merited the honor we have conferred, and in your  
new character it is expected that you will conform  
to the principles of the Order by steadily  
50 persevering in the practice of every commendable  
virtue.

Such is the nature of your engagement as a  
Fellow Craft, and to these duties you are bound  
by the most sacred ties.

1 WM: My Brother, there is a lecture in connection with this degree that it will be necessary for you to commit to memory and on which you must pass a suitable examination in open Lodge, or as provided by our Nevada Code, before you can be Raised to the Sublime Degree of Master Mason. I have no doubt that the Brother who has instructed you thus far will be pleased to continue.

JD: To observe the approach of cowans and eavesdroppers, and suffer none to pass or re-pass except such as are duly qualified and have permission from the Worshipful Mater. 1

1 Q. Your answer?

A. A worthy Brother, who has been duly initiated an Entered Apprentice, and now wishes more Light in Masonry by being passed to the Degree of Fellow Craft.

5 Q. What were you then asked?

10 A. If this was an act of my own free will and accord, if I was worthy and well-qualified, duly and truly prepared, if I had made suitable proficiency in the preceding degree, all of which being answered in the affirmative, I was then asked by what further right or benefit I expected to obtain this important privilege.

15 Q. Your answer?

20 A. By the benefit of the pass-word.

Q. Had you the pass-word?

A. I had not. My conductor had, and gave it for me.

25 Q. What were you then told?

A. Since I was in possession of all these necessary qualifications, I should wait until the Worshipful Master could be informed of my request and his answer returned.

30 Q. What was his answer when returned?

35 A. Let him enter this Worshipful Lodge of Fellow Crafts and be received in due and ancient form?

Q. How were you received?

40 A. On the angle of a Square applied to my naked right breast, which was to teach me that the Square of Virtue should be a rule and guide for my practice through life.

45 Q. How were you then disposed of?

A. Conducted twice regularly around the Lodge and to the Junior Warden in the South, where the same questions were asked and answers returned as at the door.

50 Q. How did the Junior Warden dispose of you?

55 A. Directed my conducted to the Senior Warden in the West, where the same questions were asked and answers returned as before.

Q. How did the Senior Warden dispose of you? 1

A. Directed me conducted to the Worshipful Master in the East, where the same questions were asked and answers returned as before, who also demanded of me whence I came and whither traveling. 5

Q. Your answer? 10

A. From the West, traveling East.

Q. Why did you leave the West and travel East.

A. In search of more Light in Masonry. 15

Q. How did the Worshipful Master dispose of you?

A. Ordered me re-conducted to the Senior Warden in the West, who taught me how to approach the East in due and ancient form. 20

Q. What is that due and ancient form?

A. Advancing on my right foot, bringing the heel of my left into the hollow of my right, thereby forming the angle of a square, body erect, facing East. 25

Q. What did the Worshipful Master then do with you?

A. Made me a Fellow Craft. 30

Q. How?

A. In due form. 35

Q. What is that due form?

A. Kneeling on my naked right knee, my left forming the angle of a square, my right hand resting on the Holy Bible, Square and Compasses, my left in a vertical position, my arm forming a square, in which due form I took the solemn Obligation of a Fellow Craft. 40

45 Q. Have you that Obligation?

A. I have.

50 Q. Repeat it. 50

A. I, \_\_\_\_\_, of my own free will and accord, in the presence of Almighty God and this Worshipful Lodge of Fellow Crafts, erected to Him and dedicated to the memory of the Holy Saints John, do hereby and heron, solemnly and sincerely promise and swear, that I will keep and

1 conceal and never reveal any of the secrets  
belonging to the Degree of Fellow Craft, which I  
have received, am about to receive, or may be  
5 hereafter instructed in, to any person unless it  
shall be to a worthy Brother Fellow Craft, or within  
the body of a just and duly constituted Lodge of  
such; and not unto him or them until by due trial,  
strict examination, or lawful Masonic information,  
10 I shall have found him or them justly entitled to  
receive the same.

15 Furthermore: I do promise and swear that I will  
answer and obey all due signs and regular  
summons, sent me from the body of a just and  
duly constituted Lodge of Fellow Crafts, or handed  
me by a worthy Brother of this degree, if within  
the length of my cabletow, and the square and  
angle of my work.

20 Furthermore: I do promise and swear that I will  
help, aid, and assist all poor and distressed Fellow  
Crafts, they applying to me as such, I finding  
them worthy, and can do so without material injury  
to myself.

25 Furthermore: I do promise and swear that I will  
not wrong, cheat, nor defraud a Fellow Craft's  
Lodge, or a worthy Brother of this degree, to the  
30 value of anything, knowingly, nor suffer it to be  
done by another, if in my power to prevent.

35 To all of which I do solemnly and sincerely  
promise and swear, without any hesitation, mental  
reservation, or secret evasion of mind in me  
whatsoever; binding myself under no less a  
penalty than that of having me left breast torn  
open, my heart and vitals taken thence, and with  
40 my body given as a prey to the vultures of the  
air, should I ever knowingly or willfully violate this,  
my solemn Obligation of a Fellow Craft. So help  
me God and make me steadfast to keep and  
perform the same.

45 Q. After the Obligation what were you asked?

A. What I most desired.

Q. Your answer.

50 A. More Light in Masonry.

Q. Did you receive it?

55 A. I did, by order of the Worshipful Master.

Q. On being brought to Light in this degree, what  
did you first behold?

A. The Three Great Lights in Masonry, as in the  
preceding degree, with this difference; one point  
of the Compasses was above the Square, which  
was to teach me that I had received, and was  
entitled to receive, more Light in Masonry, but as  
5 one point was still hidden from my view, it was  
also to teach me that I was as yet one material  
point in darkness respecting Freemasonry.

10 Q. What did you next behold? 10

A. The Worshipful Master approaching me from the  
East, upon the step, under the due-guard and  
sign of an Entered Apprentice; upon the step,  
15 under the due-guard and sign of a Fellow Craft,  
who presented his right hand in token of the  
continuance of friendship and brotherly love, and  
invested me with the pass-grip, pass-word, real  
grip and word, ordered me to rise, salute the  
20 Junior and Senior Wardens and satisfy them that  
I was in possession of the step, due-guard, sign,  
pass-grip, pass-word, real grip and word of a  
Fellow Craft.

25 Q. How were you then disposed of? 25

A. Re-conducted to the Senior Warden in the West,  
who taught me how to wear my apron as a Fellow  
Craft. 30

Q. How should a Fellow Craft wear his apron?

A. With the lower left corner tucked up.

35 Q. With what were you then presented? 35

A. The working tools of a Fellow Craft.

40 Q. What are they? 40

A. The Plumb, Square, and Level.

Q. How are they explained?

A. The Plumb is an instrument used by operative  
45 masons to try perpendiculars, the Square to  
square their work, and the Level to prove  
horizontal; but we, as Free and Accepted  
Masons, are taught to use them for more noble  
and glorious purposes. The Plumb admonishes  
50 us to walk uprightly in our several stations before  
God and man, squaring our actions by the Square  
of Virtue, ever remembering we are traveling upon  
the Level of Time to that undiscovered country  
55 from whose bourne no traveler returns.

1 Q. With what were you then presented?

1

A. The Three Precious Jewels; the Attentive Ear,  
5 the Instructive Tongue, and the Faithful Breast.  
They teach us this important lesson. The Attentive  
Ear receives the sound from the Instructive  
Tongue, and the mysteries of Freemasonry are  
safely lodged in the repository of Faithful Breasts.

5

10 Q. How were you then disposed of?

10

A. Re-conducted to the place whence I came,  
invested with that of which I had been divested,  
15 and returned to a place representing the Middle  
Chamber of King Solomon's Temple.

## Testimonies - Ritual - Former Worshipful Masters

\_\_\_\_\_ Masonic ritual - performed by **EX-MASONS FOR JESUS**.

\_\_\_\_\_ In the Legend of the Third Degree, Hiram Abiff willingly dies, is buried and is raised from the grave.

\_\_\_\_\_ Personal testimonies of former Masons. Members of **EX-MASONS FOR JESUS** explain why they left the lodge.

\_\_\_\_\_ A panel of three former Worshipful Masters and three pastors discuss Freemasonry and the church.

## Masonic Teachings

### **THE JESUS OF FREEMASONRY**

\_\_\_\_\_ Freemasonry does take a position, both implicitly and explicitly, on the person and teachings of Jesus Christ.

### **THE MASONIC CONCEPT OF GOD**

\_\_\_\_\_ Freemasonry teaches that ALL men of all religions worship the same God, simply using a variety of different names. Masonic literature and Grand Lodge documents reveal that Masons do not know the difference between Baal, Osiris and the God of Abraham, Isaac and Jacob.

## Witnessing to a Mason

### **HOW CAN YOU LEAD A MAN AWAY FROM THE MASONIC LODGE?**

\_\_\_\_\_ How can you witness to a Mason without his defenses going up? You have only one opportunity to begin a dialog about the incompatibility between Christianity and Freemasonry. How can you avoid the common mistakes, and have the best chance for leading him to repentance?
